Policy 101: Board Governance through Policy

**What is policy?**

School Board policies are statements which set forth the purpose and prescribe in general terms the organization and program of a school system. They create a framework within which the superintendent and his/her staff can discharge their assigned duties with positive direction. They tell what is wanted.

General adoption process

1. Policies are provided to Board members in the Board packet. Policies can be information items, no action is required.
2. Policies have first reading at the Board meeting.
3. Any comments or suggested changes are brought to the Board’s attention.
4. Second reading and adoption at the next meeting. If there are no comments or suggested changes, the adoption can be done on the consent agenda. There is no statutory requirement for multiple readings. Boards can adopt at the meeting when first introduced. Check your policy BFC for additional guidance.
