

Leadership Oregon 2017 Projects

As a participant of Leadership Oregon 2017 you are expected to complete a project that will impact your local district/charter school and share that project during our final session (May 6th).

The list below is to give you some ideas of the kinds of projects you may want to undertake.

Potential Leadership Oregon 2017 Project Topics (not limited to what's below)

1. Board Self-Evaluation
2. Recruiting Board Members
3. Orientating New Board Members
4. Board Professional Development Plan
5. Superintendent/Head Administrator Evaluation
6. Board as a PLC
7. Board - District/Charter School Communication Plan

It is our expectation that you undertake something that is not currently in place, or used to be in place and has gone by the wayside. It is also our expectation that you engage your fellow board members in the development and execution of the project in your district/charter school.

During your presentation on May 6th please be prepared to share:

- What your project is
- Why you selected that project
- How you developed your project (process used with your colleagues, etc.)
- Materials you're using/developed for the project
- The impact the project had on your board and anticipated impact into the future
- What you learned going through this process and how it impacted your leadership development
