

**Total 2002-03 Losses to School District Areas, Estimated by County,
Due to Reductions Made in Special Sessions One and Two**

The following table gives the total economic impacts of both Special Session K-12 budget reductions. These losses are given by county and school district. The table lists, starting on the left, the school district by county; the dollar loss to districts and counties from reductions in the State School Fund and the School Improvement fund; the total losses in personal income; the total number of jobs lost in the area; and the total tax revenues lost. These losses will occur in 2002-03 if the reductions made to K-12 during the first two Special Sessions are not restored.

To use the table, simply find your county and school district in the left column, and follow the row over to the right. “Totals” are the easiest to use when discussing these results. For example, in Clackamas County, current cuts to the West Linn school district could result in total losses to the local economy of \$3,806,142 in personal income, 106 jobs, and \$267,218 in total tax revenues.

Following are definitions of the data columns in the table.

State School Fund = The primary funding source for schools. The total cut to date is around \$200 million for 2002-03.

School Improvement Fund = A fund created in the 2001 Legislative session that was intended for special programs in schools. The total cut to date is \$112 million for 2002-03.

Personal Income = Wages and business income based on school district spending.

- Direct = Wages and income provided by school districts to employees and vendors, for example construction contractors.
- Indirect/Induced = Wages and income as a result of people and businesses spending their “direct” personal income.
- Total = Direct + Indirect/Induced impacts

Jobs = Employment that exists as a result of K-12 spending.

- Direct = Jobs that exist as a result of wages and income provided by school districts to employees and vendors.
- Indirect/Induced = Jobs that exist as a result of people and businesses spending their “direct” personal income.
- Total = Direct + Indirect/Induced impacts

Taxes = All state and local taxes including business, personal, and social insurances taxes.

Total 2002-03 Losses to School District Areas, Estimated by County, Due to Reductions Made in Special Sessions One and Two
